

10 THINGS YOU NEED TO DO IN THE ACE ROOM

1

DO

use the space for facilitating student-centered, active and collaborative learning activities.*

2

DO

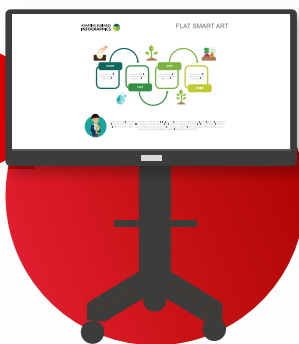

try to keep didactic lectures to a minimum.*

3

DO

ensure that what you intend to project and highlight (you can use an on-screen pointer) are seen on the COWs simultaneously.*

4

DO

use the visualizer (instead of the white board) to ensure that even students at the back can see well.*

5

DO

move around the room to engage with students.*

6

DO

use the wireless microphone while conducting your session.*

7

DO

look for CoLEAD learning designers (LDs) for your lesson planning and classroom support.

8

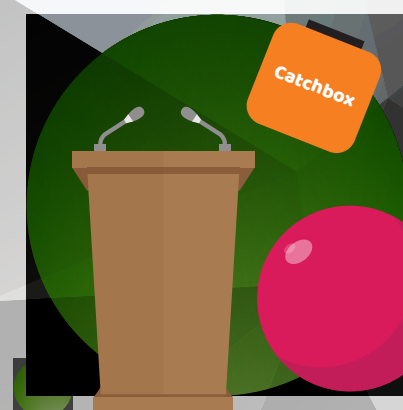

DO

change the layout at your preference BUT remember to shift back to the default after use.

10

DO

call CIT helpdesk 6592-8511 if you encounter other technical problems.

9

DO

DO play and experiment with the cool things in the room e.g., gym balls, rostrum with movable height, and catchbox.

*Feedback gathered from a study involving 398 SIT students across three clusters.
